

First Destinations of the Class of 2021 Bachelor Degree Recipients

354 – Number Awarded a Bachelor’s Degree in 2020-2021

- 115 (32.5%) – Number continuing their education
- 187 (52.8%) – Number employed

Graduates Continuing their Education

- 68 (19.2%) Number enrolled in graduate school
- 25 (7.1%) Number enrolled in professional school
- 22 (6.2%) Number enrolled in other educational programs

Most Popular Graduate School Programs in which Graduates Enrolled:

Health Professions and Related Programs	17 graduates
Biological and Biomedical Sciences	13 graduates
Education	6 graduates
Engineering/Engineering Technologies	5 graduates
Psychology	5 graduates

Most Popular Professional School Programs in which Graduates Enrolled:

Health Professions and Related Programs	17 graduates
Legal Professions and Legal Studies	6 graduates
Psychology	2 graduates

Graduates in Employment

Most Popular Industries in which our Graduates are Employed:

Human Services	41 graduates
Science, Technology, Engineering and Mathematics	27 graduates
Education and Training	24 graduates
Health Sciences	21 graduates
Information Technology	10 graduates

How data is collected:

Data is collected via survey from baccalaureate degree candidates prior to graduation. In November, data on educational outcomes is gathered from the National Student Clearinghouse, and via survey, graduates are invited to update their previous survey responses if their post-graduation status has changed, though this is not required. Outcome information is also collected from campus community members and web research.

Some graduates report more than one outcome; that is, continuing their education while also in employment. The numbers above are reflective of this. The percentage in employment only (i.e., not also continuing their education) is 44%. Data was collected through December 31, 2021. Remaining graduates were either 1. Not seeking employment, 2. Still seeking employment, or 3. No outcome was available.
