

Device Registration

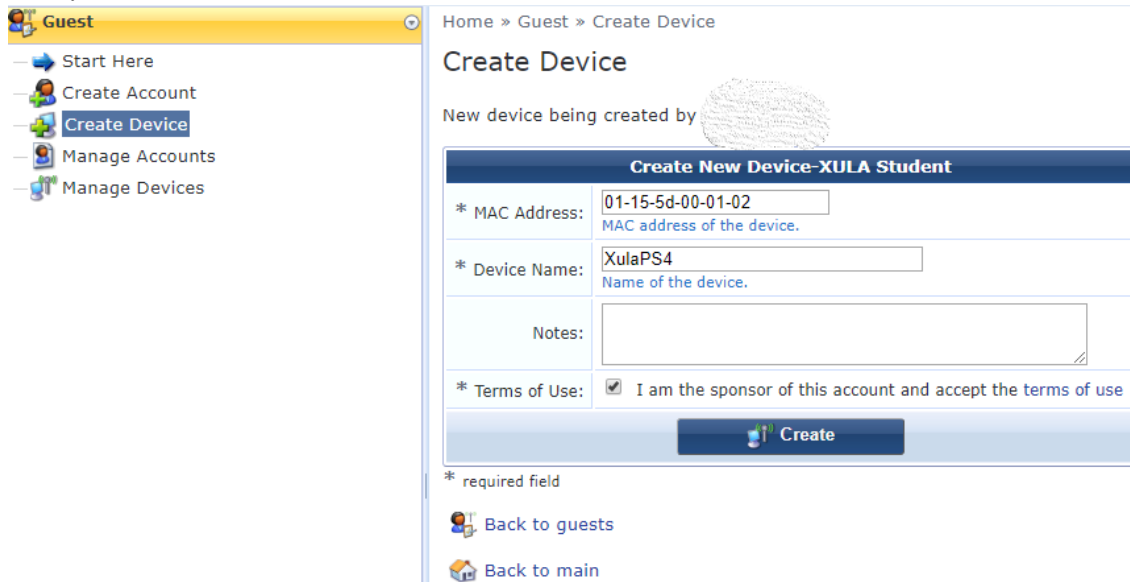

How to log into ClearPass and add a device to the network.

1. Connect to XULA-Guest wireless network from a computer, tablet or smartphone.
2. Go to <https://clear.xula.edu>
3. Login in with your username and password

The image shows a web form titled "Operator Login". It has a dark blue header with the title in white. Below the header are two input fields: "Username:" with the text "student" and "Password:" with a masked password of seven dots. At the bottom of the form is a blue button labeled "Log In".

4. Click on **Create Device**
5. Add the MAC Address of the device that you are adding. If you need help finding your MAC please click this link www.xula.edu/itc/documents/HowToFindYourMACAddress.pdf
6. Give your device a name the check the terms of use box, then click create.

The image shows a web interface for "Create Device". On the left is a navigation menu under the "Guest" header with options: "Start Here", "Create Account", "Create Device" (highlighted), "Manage Accounts", and "Manage Devices". The main content area has a breadcrumb "Home » Guest » Create Device" and the title "Create Device". Below the title is the text "New device being created by" followed by a blurred name. The main form is titled "Create New Device-XULA Student" and contains the following fields: "* MAC Address:" with the value "01-15-5d-00-01-02" and a tooltip "MAC address of the device."; "* Device Name:" with the value "XulaPS4" and a tooltip "Name of the device."; "Notes:" with an empty text area; and "* Terms of Use:" with a checked checkbox and the text "I am the sponsor of this account and accept the terms of use". At the bottom of the form is a blue button labeled "Create". Below the form, there is a legend "* required field" and two links: "Back to guests" and "Back to main".

7. Repeat steps 3 & 4 if you have more than one device
