

Device Registration

How to log into ClearPass and add a device to the network.

1. Connect to XULA-Guest wireless network from a computer, tablet or smartphone.
2. Go to <https://clear.xula.edu>
3. Login in with your username and password

The image shows a web form titled "Operator Login". It has a dark blue header with the title in white. Below the header, there are two input fields: "Username:" with the text "student" and "Password:" with a masked password of seven dots. At the bottom of the form is a blue button labeled "Log In".

4. Click on **Create Device**
5. Add the MAC Address of the device that you are adding. If you need help finding your MAC please click this link www.xula.edu/itc/documents/HowToFindYourMACAddress.pdf
6. Give your device a name the check the terms of use box, then click create.

The image shows a screenshot of the "Create Device" page in the ClearPass interface. On the left is a navigation menu for the "Guest" user, with "Create Device" highlighted. The main content area shows the "Create Device" form. The form has a dark blue header "Create New Device-XULA Student". It contains several fields: "MAC Address" with the value "01-15-5d-00-01-02", "Device Name" with the value "XulaPS4", and "Notes" which is empty. There is a "Terms of Use" section with a checked checkbox and the text "I am the sponsor of this account and accept the terms of use". At the bottom of the form is a blue button labeled "Create". Below the form, there is a legend for "* required field" and two links: "Back to guests" and "Back to main".

7. Repeat steps 3 & 4 if you have more than one device
